Bill and Simone's Holiday

I still remember that disastrous sailing holiday.....
Bill and I left Miami one summer weekend on a sailing holiday in our boat "Siboney". We wanted to sail round the Caribbean Sea for a couple of weeks.

During our holiday, we saw a large group of whales. We were very excited. Unfortunately, while we were watching them, the whales began to hit the side of our boat. Suddenly, water started flooding in and we realized that we were in trouble. We quickly jumped into the lifeboat while the boat was sinking. Soon, it disappeared under the sea.

Fortunately, we had enough food and water for twenty days and a fishing line which helped us to survive. For the next fifty days, we caught about ten fish a day and ate them raw. We also drank only rain water. We saw many boats but although we waved and shouted while they were passing, nobody saw us. Then, as we were beginning to lose hope, a fishing boat rescued us. Our disastrous holiday was over.
